

## EDU8

Edu8 auditorium seats have molded plywood back and thick soft seat. Edu8 takes up 35 cm of depth and so it is especially suitable for smaller spaces.

**Construction:** Steel tube 30 x 40 mm. The seat works with the counterweight placed inside the seat. The underside of the seat can be upholstered or veneered plywood/perforated. The backrest is 12 - 15 mm molded plywood or laminate surfaced to give good seating comfort, upholstered or without upholstery.

**Foams:** Seat 5 cm CMHR50, back 1 cm CMHR50

**Angle of back:** 18 degrees

**Armrests:** Wooden armrest L shaped or without armrest

**Writing tablet:** Fixed table or NoteWB also several options on the back of the chair

**Wooden parts:** Birch, beech, ash, maple, oak etc. lacquered, stained or painted with the desired color

**Metal parts:** Epoxy painted with the desired RAL color

**Fabric demand:** 0.9 m / pcs

**Meets fire safety requirements:**
