

ODEON

Odeon is a seat designed by Jouko Järvisalo. It has good ergonomics and can accommodate a writing top inside the armrests.

Construction: Wooden side panels 60 mm. The seat works with counterweight placed above seat inside the upholstery. Seat upholstered, with veneered plywood/perforated seat bottom or fully upholstered. Back upholstered, background 9 mm veneered plywood with solid wood lists around.

Writing tablet: Armrest tablet in the side panel or several options on the back of the chair.

Armrests: On the side panel.

Foams: Seat 5 cm shaped CMHR50, back 8 / 5 cm shaped CMHR35

Angle of back: 17 degrees

Wooden parts: Birch, beech, ash, maple, oak etc. lacquered, stained or painted with the desired color

Metal parts: Epoxy painted with the desired RAL color

Fabric demand: 1.2 m / pcs
