

MONO

MONO chair appears as a rectangular case and opens up into a back, seat and armrests in one movement of the hand. When closed, the chair is only 12 cm deep. The seat is spring-loaded, and returns to the casing simultaneously with the backrest and armrests. MONO is designed by Philip Kronqvist.

Construction: Covered metal plate frame. The underside of the seat and backplate of the backrest veneered or laminated. The seat and backrest upholstered, foam shaped to give good seating comfort.

Writing tablet: Separate table e.g. NoteWB

Armrests: Integrated armrest

Foams: Seat 7 / 3 cm, back 2 / 4 cm, CMHR foam

Angle of back: 20 degrees

Wooden parts: Birch, beech, ash, maple, oak etc. lacquered, stained or painted with the desired color or laminated MDF/HDF

Metal parts: Powder coated with desired RAL color

Fabric demand: 0,60 m / pcs

Meets fire safety requirements:
